

# Only You

© 2018 Hannah Untereiner

## **Verse 1**

You were my best friend  
Thick and thin to the bitter end  
Sharing stories into the night  
I never doubted it was right

All your secrets I held close  
Time went fast but we made the most  
Forever friends in high school  
Proved an exception to the rule

## **Chorus**

Shut me up, shut me down  
You don't want me around  
It's been tried and it's true  
There's no us, there's only you

## **Verse 2**

Time went by, our lives realigned  
We found jobs to pass the time  
Your judgment was plain  
You viewed my choice with disdain

Thought I was skipping to the fast lane  
You never let me explain  
And I weathered the pain  
What did you really have to gain?

## **Chorus**

## **Bridge**

Only you could make me feel so unwanted  
Only you could twist my words from my mouth  
Only you consume my mind and leave me haunted  
Only you could make everything go south

## **Verse 3**

I remember your warm smile  
It's been gone for a long while  
I still care for you, friend  
Even though we've reached the end

There's no way I can change your mind  
Maybe it'll heal with time  
Let's both carry on  
Let bygones go and get gone

## **Chorus**

Shut me up, shut me down

You don't want me around  
It's been tried and it's true  
There's no us, there's only you  
There's no us, there's only you  
There's no us, there's only you
